

CAPSUS

Urban planning strategies for the sustainable and inclusive development of cities

Who We Are

CAPSUS supports public and private entities in informed decision-making. We use data and analysis to promote policies, strategies, and projects that foster economic development, social well-being, and environmental balance.

At CAPSUS, we believe that people and technology create an excellent synergy for the transformation of cities into livable spaces. We develop digital tools to improve urban planning and generate participation processes to ensure efficient decision-making.

Areas of Action

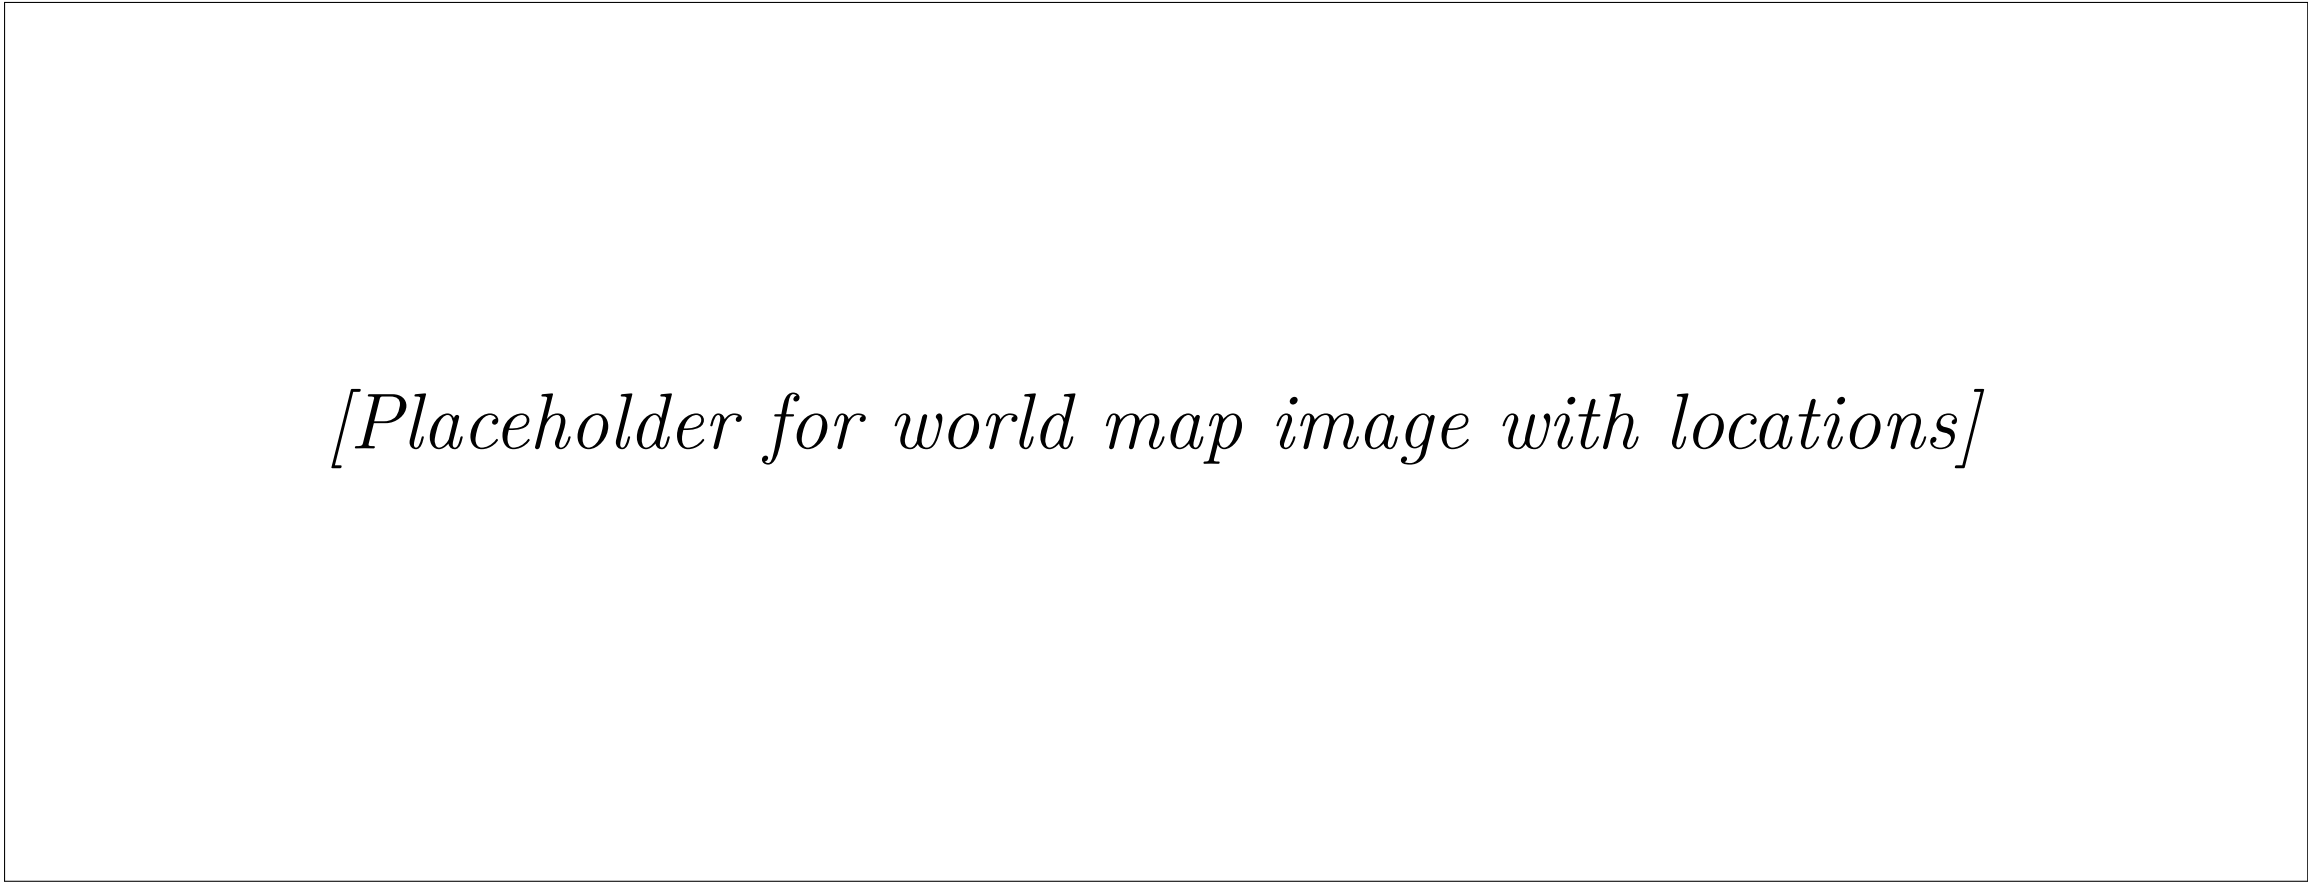

- Urban planning and sustainable building
- Dissemination and capacity building on sustainability
- Sustainable assessments and studies
- Public policy design and evaluation

Strengths

- Sustainable urban planning for national, regional, and local governments.
- Evaluation, analysis, and design of public policies with an environmental and social focus.
- Efficiency solutions for water and energy use in buildings and at the city level.
- Environmental studies and assessments for the private sector.
- Capacity building, knowledge exchange, and training on environmental and social issues.

International Presence

International consulting firm. We implement effective strategies thanks to the use of innovative methodologies and our experience in diverse contexts.
